

NSW Cancer Plan

Vision: To end cancers as we know them

Goals

Reduce inequity in cancer outcomes

Reduce the incidence of cancer

Increase cancer survival

Enhance quality of life and experience for people at risk of and affected by cancer

Overriding principles

✔ Equity of outcomes

Improve cancer outcomes in communities that continue to have poorer outcomes to help everyone achieve their best health.

Focus on achieving equitable cancer outcomes for Aboriginal communities.

✔ Person-centredness

Focus on the experiences of people with cancer and those accessing screening and prevention services, to ensure they achieve outcomes that are meaningful to them.

✔ Collaboration

Work together at the system, service and care team levels with clear roles, accountabilities and governance, to achieve the best cancer outcomes.

Priorities

1. Prevention of cancers

2. Screening and early detection of cancers

3. Optimal cancer treatment, care and support

4. Cancer research

← Strategic actions →

System enablers

Staff are engaged and well supported

- Leadership and culture
- Workforce

Innovation and digital advances inform service delivery

- Data and information
- Technology and innovation

The system is managed sustainably

- Governance
- Monitoring, evaluation and reporting

Target outcomes

Achieve equitable cancer outcomes for all NSW residents.

Reduce the risk of preventable cancers for people in NSW.

Increase one- and five-year survival of NSW residents with cancer.

Increase the collection and use of people's reported experience and outcomes to improve care and services.
