

Cancer Institute NSW

Bowel screening is  
women's business

“ I’m doing it for  
my kids, my family and me.  
I’m doing it today.”

**NATIONAL**  
**BOWELCANCER**  
SCREENING PROGRAM

# A simple, free bowel screening test could save your life.

Bowel cancer is important business for us women too. In fact, it's one of the most common cancers in Aboriginal women.

You can have bowel cancer without knowing it, so doing the bowel screening test kit is the best way to find it early, when it can be successfully treated. The test kit is safe and can be done by you at home.

**Your mob needs you to be healthy, strong and deadly. So if you get a free screening kit in the mail or from your healthcare provider, use it as soon as possible.**

**For more information,  
visit [DoTheTest.com.au](https://DoTheTest.com.au)  
or call 1800 627 701.**
