

“I know most of us  
would rather yarn about the  
footy, but we need to start  
yarning about bowel cancer...”

**NATIONAL**  
**BOWELCANCER**  
SCREENING PROGRAM

# Bowel cancer is important business for us men.

In fact, it's one of the most common cancers in Aboriginal men.

You can have bowel cancer without knowing it. So doing a free bowel screening test kit could save your life, and help to make sure you're around to be strong and healthy for your family.

When found early, nearly all bowel cancers can be treated successfully.

**Remember, if you get a free screening kit in the mail or from your healthcare provider, do it as soon as possible.**

**For more information,  
visit [DoTheTest.com.au](http://DoTheTest.com.au)  
or call 1800 627 701.**
